Consultation document was finalized and provided to Bob Brobst yesterday. A copy was sent to David Ostrander. Chris is out of the office, so please contact me or Dan Strausbaugh as needed.

Robert Brobst (EPAR8) requested a technical consultation from Region 8 ATSDR to evaluate well sampling data from the Gold King Mine spill. EPA Region 8 provided a data set from samples collected and I believe ATSDR is in the process of finalizing their conclusions and recommendations. Chris Poulet or Scott Sudweeks in the Regional ATSDR office would be the best point of contact.

Do either of you know who at ATSDR is involved with GKM and what role they are playing? If not, please pass onto someone who may know. They were just mentioned as players in a La Plata County meeting this morning.
